505 Barton Springs Road

P.O. Box 1088

Austin, TX 78767

April 9, 2013

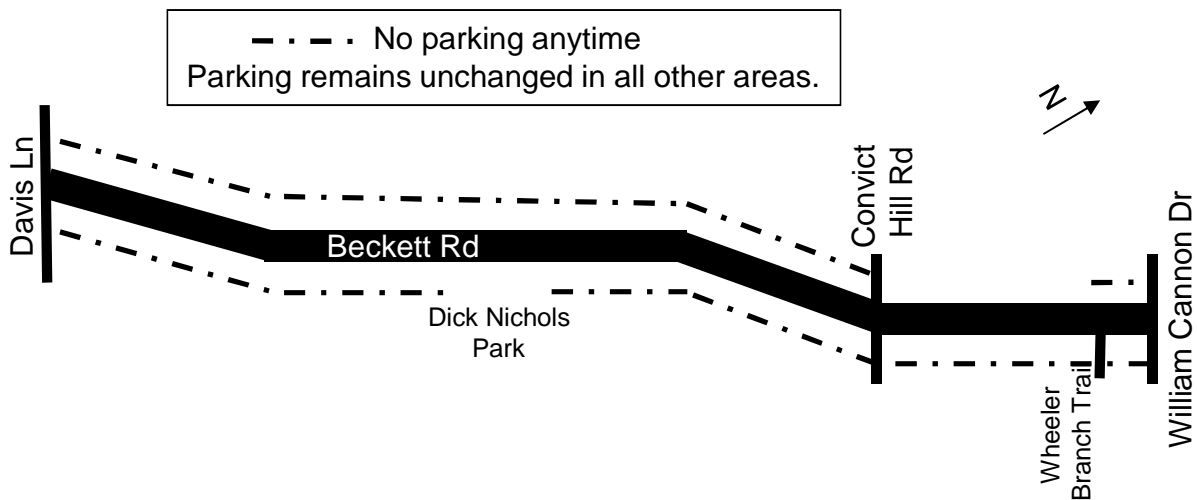

To Stakeholder, Property Owner, or Resident:

In order to improve safety for all modes of transportation, the City's Public Works Department is implementing and improving a bicycle route system, as directed by the Austin City Council per **City Ordinance No. 20090611-075 (The Austin Bicycle Plan)**. Beckett Road from Davis Lane to William Cannon Drive is part of Route 5 of the City of Austin bicycle system. You are receiving this notification because you live on and/or own property adjacent to Beckett Road in Austin, Texas, and/or are a stakeholder in the area.

In coordination with routine street maintenance (road re-surfacing and re-striping), and to enhance mobility in the corridor for both motor vehicles and bicycles, the street striping will be reconfigured to include bicycle lanes between Convict Hill Road and William Cannon Drive and to improve the existing bicycle lanes between Davis Lane and Convict Hill Road. To accomplish this reconfiguration, on-street motor vehicle parking will be prohibited on certain sections of Beckett Road. The corridor's safety and mobility, as well as the results of an on-street parking use analysis, were considered to determine these parking modifications:

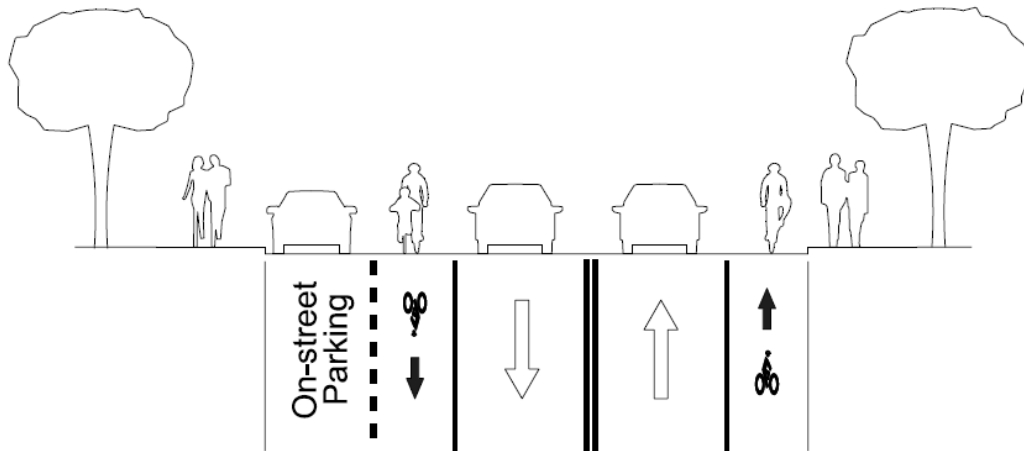

- **Beckett Road** (from Convict Hill Road to William Cannon Drive) – prohibit parking on the east side of the street.
- **Beckett Road** (from Wheeler Branch Trail to William Cannon Drive) – prohibit parking on the west side of the street.
- **Beckett Road** (from Davis Lane to Convict Hill Road) – allow parking for approximately 500 feet on the east side of the street adjacent to Dick Nichols Park. Prohibit parking on both sides of the street elsewhere.

Figure 1 – Beckett Road Planned No Parking Zones

As indicated in Figure 1, sections of Beckett Road will have permitted parking on only one side of the street. Beckett Road will still have bicycle lanes in both directions and will also have a parking lane on one side of the street as shown below in Figure 2.
